**What will happen to urban mobility in the next 10, 50, 100 years, and beyond? Following the quote “The future is not predetermined and waiting to happen – it is ours to shape” (Lyons & Urry, 2006), we understand that our situation in the future largely depends on decisions we make today. We invite you to share your ideas on how to develop urban mobility for the future, to give your contribution, today.**
